COMMITMENT:

We experience the lavatory operation under its BEST and WORST conditions so you have a clear idea of what your heading into

RESEARCH:

CG Field Associates spend 6 hours examining each lavatory we audit, capturing data that no other survey can provide.

Placerville, California

Old Hangtown

A charming, vibrant, historic small town with a gold rush atmosphere, located just a few miles from gold discovery site at Sutter's Mill in 1849. A place where you can still visit a lavatory free of charge – but at your own risk !

Historically bad plumbing caused by hyper focus on Gold Mining and Bell Tower development...
